the Examiner describes work presented at a meeting in October 2000, within one year of the filing date of the U.S. Patent Application 10/079,040.

3. The inclusion of Wendy Vaala and Karen Bennett-Wimbush as authors on the publication and not as inventors on the U.S. Patent Application was because the invention of the application was conceived and reduced to practice solely by us. Wendy Vaala and Karen Bennet-Wimbush were included as authors on the publication because they provided samples from pregnant mares.
